WEEKS DELIVERY

12 Pages

+ ADMIN CMS

EXECUTIVE SUMMARY

Why Ocean Cyber — not WordPress

You requested WordPress with Astra Pro and Elementor Pro. After reviewing your full brief — certificate verification, admissions workflow, Google Workspace integration, and future LMS expansion — we recommend our proven custom development stack. It delivers WordPress-level content manageability with stronger performance, security, and a clear path to Phase 2 features without rebuilding the platform.

Our recommendation: The same technology stack behind institutional platforms such as *africagovernancecentre.org* — a modern, API-driven architecture your team can manage through a dedicated admin dashboard, with no plugin conflicts or annual theme licence fees.

PREPARED BY**Ocean Cyber**

PREPARED FOR**KHDA-Approved Computer Skills Training Institute**

Dubai, United Arab Emirates
Admissions / IT Contact — to be confirmed

SCOPE — 12 PAGES

[Home](#)[About Us](#)[Training Programs](#)[Corporate Training](#)[BootCamp Programs](#)[Training Locations](#)[Upcoming Intakes](#)[Admissions](#)[Certificate Verification](#)[Blog & News](#)[Careers](#)[Contact Us](#)

Capability	WordPress (Requested)	Ocean Cyber Stack (Recommended)
Performance & page speed	Plugin-dependent	Optimised by design
Content management	WordPress admin + Elementor	Custom admin dashboard
Certificate verification	Plugin or heavy customisation	Built-in, Phase 1
Future LMS / student portal	Often requires rebuild	Same platform, modular
Security & maintenance	Plugin updates, theme conflicts	Controlled codebase
Annual licence costs	Astra Pro + Elementor Pro	No theme/plugin fees
Source code ownership	Theme/plugin licences	Full ownership

SECTION 1

Recommended Technology Stack

FRONTEND**Next.js 14+**

Fast, responsive, SEO-optimised

API LAYER**NestJS**

Secure integrations & business logic

DATABASE**PostgreSQL**

Courses, certificates, admissions

CONTENT**Custom Admin CMS**

No plugins — full control

INTEGRATIONS**Google Workspace**

Forms, Sheets, Gmail, Calendar

PAYMENTS**Stripe Links**

Secure manual payment links

SECTION 2

Custom-Developed Features (Phase 1)

- Certificate verification (number + QR scan)
- Admissions pipeline → Google Sheets + email alerts
- Instructor profiles, FAQ & testimonials
- Multilingual-ready (Arabic in Phase 2)
- Training programmes catalogue with Apply Now CTAs
- Training calendar & upcoming intakes
- Course & location management in admin

Configured integrations (not custom-built): Google Analytics 4, SSL certificate, Google Workspace app links (Classroom, Meet, Drive), and Stripe Payment Links sent manually after consultation.

ADMISSIONS WORKFLOW**Step 1****Browse programmes**

Students explore training courses and upcoming intakes

Step 2**Apply or book consultation**

Apply Now / Book a Consultation CTAs on every programme

Step 3**Online application**

Google Form submission → Gmail notification + Google Sheets record

Step 4**Admissions follow-up**

Your team contacts applicants by phone, WhatsApp, or email

Step 5**Payment & enrolment**

Secure Stripe payment link sent manually; student enrolled after confirmation

SECTION 3

Development Timeline — 16–18 Weeks

Weeks 1–2	Discovery & Design Content audit, wireframes, design approval
Weeks 3–6	Frontend Build All 12 pages, responsive QA
Weeks 7–10	CMS & Integrations Admin panel, certificates, Google Workspace
Weeks 11–13	Content & SEO Population, performance tuning, UAT
Weeks 14–16	Launch Deployment, SSL, training, go-live
Weeks 17–18	Support Window Revisions + 60-day defect support begins

SECTION 4

Project Investment

Deliverable	Amount (USD)
Discovery & Premium UI Design Brand-aligned wireframes, page templates, and responsive design system.	2,500.00
Frontend — 12 Core Pages All programme, admissions, and institutional pages — mobile-first and SEO-ready.	4,500.00
Custom CMS Admin Panel WordPress-equivalent manageability — pages, courses, blog, FAQs, testimonials, enquiries.	3,000.00
Certificate Verification System Unique numbers, QR codes, public lookup, admin create/edit/search/revoke.	2,500.00
Admissions & Google Workspace Apply Now flows, Forms → Sheets + Gmail, Calendar, Maps, Analytics.	2,000.00
Calendar, Instructors & Content Modules Intake schedules, instructor bios, FAQ, and testimonial sections.	1,500.00
Multilingual-Ready Architecture English Phase 1; Arabic added in Phase 2 without platform rebuild.	1,000.00
Deployment, Docs, Training & Support SSL deployment, source code handover, admin training, 60-day post-launch support.	1,500.00

USD 18,500.00

TOTAL PROJECT INVESTMENT

USD 9,250.00

50% MOBILISATION DEPOSIT

USD 9,250.00

BALANCE ON COMPLETION

SECTION 5

Recommendations for Scalability

Custom stack over WordPress

Avoids Astra/Elementor licence renewals, plugin conflicts, and costly rebuild when adding LMS or student portal.

Google Forms for Phase 1 admissions

Fast to launch, familiar to your team. Native forms can be added in Phase 2 if needed.

Stripe Payment Links (manual)

Matches your consultation-first workflow without complex checkout in Phase 1.

Arabic in Phase 2

Content translation on existing i18n structure — no redesign required.

Modular future expansion

LMS, student portal, SIS, CRM, and mobile apps extend the same platform — not a new website.

DELIVERABLES INCLUDED

- ✓ Fully functional website with administrator access
- ✓ Certificate Verification System (Phase 1)
- ✓ Technical documentation
- ✓ Live administrator training session
- ✓ Google Workspace, Forms & Calendar integrations
- ✓ Full source code ownership
